**Subject:** Richardson Flat: Pace Ranch

Hey Amelia,

I just had a nice conversation with Laurie Goldner, the environmental consultant for Walter Plumb. We discussed, in general terms, completing environmental analysis at the Pace Ranch property, and how that could fit in to our risk assessment, and, if appropriate, presumptive capping remedies. I explained that the work would need to be done under an AOC for EPA to use the data for decision making purposes. For next steps, Laurie was to discuss with Walter Plumb and, if interested, we'd arrange a kick off discussion to go over process and timing.

Rob
